Public transportation information

In this document, we have gathered information about public transportation relevant for your stay in Copenhagen.

On the page below, you see a map of the different public transportation zones in Copenhagen and environs. The different zones are important when deciding which type of ticket suits your needs during your stay. Please note that the number of zones on a route may vary according to your starting point. On this site, you can get a precise zone map in connection with your starting point by typing in the station in the box marked “søg” (=search): https://www.dsb.dk/priser-og-zoner/priser-og-zoner-i-hovedstadsomradet/?searchStation

The University of Copenhagen, South Campus, is located in zone 1 (red on the map below), and the nearest station is the metro station “Islands Brygge”.

On this site you can find general information about the types of tickets which could be relevant for you during your stay: https://www.dsb.dk/en/travelling-in-the-cities/copenhagen/

Another ticket possibility is to buy a Rejsekort Anonymous (a plastic card with a chip). With this option, you can pay as you go along by topping up your card e.g. in machines, at DSB 7-eleven kiosks, or at ticket offices. Be sure to be aware of the balance on the card. The Rejsekort Anonymous is not restricted to certain zones in Copenhagen and environs, but can be used all over. Note, however, that it may not be the cheapest option if you wish to use public transportation a lot during your stay. Remember to “check in” before getting on a train, or as you enter a bus, and to “check out“ when you have left a train or just before you get off a bus. The Rejsekort Anonymous can for instance be bought in a machine at the train station at Copenhagen Airport, Kastrup, or at ticket offices at the Copenhagen Central Station. Read more about the Rejsekort anonymous here: https://www.rejsekort.dk/koeb-rejsekort/sammenlign-rejsekort/rejsekort-anonymt.aspx#
