

CIP Symposium 2022: abstract

CLIL, overgange, flersprogethed – udfordringer og potentialer

Lektor Petra Daryai-Hansen, Engerom, KU

Hvad er Content and Language Integrated Learning (CLIL), hvordan kan vi arbejde med CLIL på tværs af uddannelsesniveauer, og hvordan kan vi sammentænke CLIL og flersprogethedsdidaktikken?

Med afsæt i projektet *CLIL in Languages Other Than English – Successful Transitions across Educational Stages*, som er finansieret af European Centre for Modern Languages ved Europarådet og som jeg koordinerer frem til 2023, giver mit oplæg et indblik i **potentialer** og **udfordringer inden for feltet**.

CLIL, transitions, plurilingualism – challenges and potential

Associate Professor Petra Daryai-Hansen, Engerom, UCPH

What is Content and Language Integrated Learning (CLIL), how can we apply CLIL across different educational stages and how can we reconcile CLIL with teaching about plurilingualism?

Based on the project *CLIL in Languages Other Than English – Successful Transitions across Educational Stages*, which is financed by the European Centre for Modern Languages at the European Council and which I am the coordinator for up until 2023, my presentation provides an insight into the **potential** and the **challenges** involved in this area.
