

CIP Symposium 2022: abstract

Developing cross-institutional internationalization at Nordic universities

International Coordinator Michael Bo Ryge Larsen, Faculty of Humanities, and Assistant Professor Kamilla Kraft, Engerom, UCPH

In this presentation we will introduce NordPath, a network for co-creating new paths for Nordic internationalization in higher education. The Nordpath project consists of partners from University of Helsinki, University of Iceland, Stockholm University and University of Copenhagen, and it has two aims: (1) to develop increased collaboration between the international departments of these institutions, and (2) to develop a digital cross-institutional course in intercultural communication competence for all students at the partner universities.

In short, the project addresses internationalization in a range of ways: as collaboration between national institutions, as a need and competence for university students, and as mediatized cultural and linguistic encounters. Michael will introduce the network part of the project, while Kamilla will explain about the process of developing a joint digital course in intercultural communicative competence. We will discuss how such a project reframes internationalization in higher education and with what affordances as well as constraints for learning and teaching.

NordPath is sponsored by Nordplus. You can read more about the project [here](#).

The presentation will be given in English with slides in Danish.

Kunsten at samskabe internationalisering på tværs af universiteter i Norden

International Koordinator Michael Bo Ryge Larsen, Det Humanistiske Fakultet, og Adjunkt Kamilla Kraft, Engerom

I dette oplæg introducerer vi Nordpath, et netværk der har til opgave at samskabe nye veje for nordisk internationalisering inden for videregående uddannelser. I Nordpath-projektet deltager Helsinki Universitet, Islands Universitet, Stokholms Universitet og Københavns Universitet.

Projektet har to hovedformål: (1) at skabe tættere samarbejde mellem institutionernes internationale uddannelsesområder, og (2) at udvikle et digitalt tværinstitutionelt kursus i interkulturel kommunikation for studerende. I oplægget vil vi diskutere, hvordan et projekt som Nordpath omskaber internationalisering på universiteterne og i videregående uddannelse, og hvilke muligheder og udfordringer dette medfører ift. læring og undervisning.

Nordpath er sponsoreret af Nordplus. Læs mere om projektet [her](#).

Præsentationen gives på engelsk med slides på dansk.
